

I'm **Wesley Fisher**, one of the Cottonwood Improvement District Trustees. (No relation to Board Chair Mr. Reed Fisher) I feel it's a privilege and an obligation to serve in our community. I believe I need to serve where I can make a difference. I bring a different insight to the district being in the pipe, valve and fitting industry and want to serve the needs of our area with my knowledge.

I grew up in the middle of Sandy in the unincorporated White City area. I recently moved to Sandy from Midvale City where I served as a planning commissioner for two years on the city planning committee. Many new changes came about in Midvale City and I feel my input helped shape the look and innovative building that is continuing today.

Some facts about myself are:

- Eagle Scout 1985.
- Graduated Alta High School 1988.
- Served an LDS mission in the Denver Colorado area 1993 - 1995.
- Associate of Science in Business at Salt Lake Community College 1998.
- Business Management B.S. degree from The University of Utah 2003.
- State Republican delegate 2006.
- Planning commissioner for Midvale Planning Commission appointed by Mayor JoAnn Seghini 2011 - 2013.
- Partner and Secretary/Treasurer of Mountain West Pipe and Supply in South Salt Lake 2005-Present.
- Cottonwood Improvement District Board Trustee January 2016-Present.
- Currently serving as an Assistant Scout Master in our local troop.

“The biggest concern I have is how large the budget of the Cottonwood Improvement district is and how we as citizens need to keep the CID in check what they are spending our money on.”

At Mountain West Pipe and Supply I serve as the Quality Manager as well as Secretary and Treasurer for the company. The CID doesn't purchase any product from our firm.

I'm a proud adoptive father of one girl and two crazy boys, and have been married almost 20 years to my beautiful wife that has been so gracious to support me in my endeavors. I love to spend time with my family outdoors, fishing, hunting, hiking, camping, golfing and skiing.

My goal is to represent you in good conscience that will promote a respectable district giving great service and sound business solutions at the lowest rates we can afford.

Thanks for your continual support.

Wes Fisher
