

Reed N. Fisher, P.E.

Graduate from the University of Utah with a B.S. in Civil Engineering (emphasis in Sanitary Engineering).

Is a licensed Professional Engineer in the State of Utah and a member of the Water Environment Federation, Water Environment Association of Utah and Engineering associations.

Worked for and became a Junior Partner with Coon, King and Knowlton Engineers later purchased by Daniel, Mann, Johnson and Mendenhall of Los Angeles, California. Served as Associate Vice President and Division Manager of the Salt Lake City office with an engineering staff of 40 to 60 people.

Worked as a consulting engineer for 19 years serving communities, districts and federal government with the design, construction management and operation of water and wastewater facilities and systems. Projects included the 62 million gallon Central Valley Water Reclamation Facility in South Salt Lake City and 565 million gallon Hyperion Wastewater Treatment Facility in Los Angeles, California.

Managed the Central Valley Water Reclamation Facility for 22 years with a staff of 80 personnel.

Served on the operator certification council for the State of Utah and other utility boards.

Elected to the Cottonwood Improvement District Board of Trustees to a four-year term in November 2014
